

The Everett Clinic

The Everett Clinic is a nationally recognized, locally owned physician group practice with more than 200 physicians providing high quality care to patients. With thirteen locations throughout Snohomish County, The Everett Clinic specializes in more than 40 medical, surgical and diagnostic fields.

Founded in 1924, The Everett Clinic employs more than 1,300 staff and 200 physicians, who provides specialized care to approximately 275,000 patients:

- 660,000 visits each year
- 2,300 visits per day
- 50,000 surgeries annually

Advanced Technology, Trusted Patient Care

The Everett Clinic has brought state-of-the-art medical technology to Snohomish County. Clinic physicians work together as a team, providing unparalleled care and treatment. The Everett Clinic offers:

- An advanced imaging center with highly trained physicians, specialists and technicians
- Two surgery centers with advanced technology such as 3D image-guided surgery
- Six urgent care Walk-In Clinics, open seven days a week with extended hours
- Hearing aid center and optical/eye centers

Bringing Value To Health Care

Through comprehensive, efficient services that blend technology and innovation, The Everett Clinic brings value to patients and our community. The Everett Clinic is leading efforts to:

- **Manage chronic disease** – Patients with chronic illness and disease are carefully monitored. Ongoing education about care and medication is provided and the result is fewer ER visits, less hospitalizations and healthier patients.
- **Promote health and wellness** – High-risk patients are identified and provided reminders about needed tests such as cholesterol, colon cancer screening, mammography and several others. The goal is increased prevention and improved patient health.
- **Keep patients safe** – The Everett Clinic partnered with the University of Washington and received a major national grant to study causes of medical errors in prescribing medications. Participation in several quality-control programs helps ensure patient safety.
- **Manage pharmacy costs and quality** – Several effective steps have been taken to control pharmacy costs for patients while maintaining and often improving the quality of the medications prescribed.

Recognition For Healthcare and Community Service

- Washington CEO magazine named The Everett Clinic as one of the 2004 Best Companies to Work For in Washington State.
- The American Medical Group Association awarded The Everett Clinic with one of three national 2003 Preeminence Awards. The clinic was recognized for its patient centered model of care and for its high provider and staff satisfaction results.
- The Everett Clinic Foundation donates more than \$200,000 to the community each year for programs that serve direct human needs such as emergency food and shelter.
- Qualis Health chose The Everett Clinic as one of five Washington state health care provider organizations to receive its 2003 Excellence in Healthcare Quality Award.
- The National Committee for Quality Assurance (NCQA) and the American Diabetes Association (ADA) recognized Dr. Anne-Marie Lee, a physician in the endocrinology department of The Everett Clinic, for providing quality care to her patients with diabetes.
- Dr. Thomas J. Smith, a surgeon at The Everett Clinic, has been included in the Best Doctors in America 2003-2004. Only physicians who earn the consensus support of their peers are included in the Best Doctors in America database, which represents the top five percent of doctors in more than 400 subspecialties of medicine.
- The Association of Washington Business awarded The Everett Clinic with its 2003 Community Service Award and its 2002 Better Workplace Award.
